SATURDAY AT FITTS'

KABC CORSET
SPECIAL, 69c

240 Wrappers at 69c

A manufacturer had this lot of Wrappers left that were made up of prints bought before their advance in price. He made us an offer for the lot. We explained to him we must have them to sell for 69c. He finally conceded, and Saturday we put in the entire lot, two hundred and forty Wrappers, at 69c---actually less than we can buy them for today. Nice colorings---reds, blues, greys and blacks and whites. All sizes---32 to 44.

To protect ourselves against anyone buying these to sell again we reserve the right to limit the number to each customer.

THE WEAK POINT

The weak point of most Shoes is the arch. There all the strain and weight are concentrated. It is the one vital point that should be firmly supported.

The steel arch construction of the "Dorothy Dodd" Shoe gives this support. There is an indescribable snugness under the arch that most other Shoes have ever lacked. It relieves all the strain on the delicate, sensitive parts, adds an impetus to the step and a lightness to the gait.
